

Sean Anayah

ENVIRONMENTAL CONSULTANT

SSANAYAH@GMAIL.COM

1. SUMMARY

Mr. Anayah is an Environmental Consultant with four years of experience delivering and coordinating projects. His primary interests include climate change adaptation/mitigation and facilitating the transition to renewable energy. His specialities include development and implementation of sound economic and legislative environmental and energy policy. Recently, he has gained hands-on experience through his participation at the ClimateKIC Journey as well as the Blockchain summer school in Copenhagen. At the ClimateKIC Journey, a program focused on climate conscious entrepreneurship, his team developed a start up focused on demand response energy reduction. He had the privilege of pitching his groups solution at the ClimateKIC start up competition in Helsinki, Finland. At the Blockchain Summer School, his team explored incorporating disruptive technologies such as IoT, blockchain, and automation to crowd fund for solar power projects in Denmark.
